

Change of the parking system in the public parkings in BB Centrum

Dear Club members,

On behalf of the operator we would like to inform you about the changes in the parking system. The changes will be applied from July 1, 2019 in public parkings where you can park during your club visit with discount. The parkings with the changes are Za Brumlovkou public parking, underground parking in Brumlovka building and also the underground parking in Delta building.

Probably the main change is the transition into the system with the car registration numbers reading (not for Delta building), having gates in the public parking and the unification of the hourly rates in all of the parkings mentioned above.

From that day you will not use your Member card anymore when entering the parking but you will go according the scheme below:

1) Entry

a) Za Brumlovkou public parking

The camera reads the car registration number at the entrance and the gate opens automatically. Now you can park your car on the public parking or you can go on to the underground parking in Brumlovka building. In case the camera can not read your car registration number and the gate does not open automatically, push the button on the stand, take your parking ticket and the gate opens.

b) Underground parking in BRUMLOVKA building

When you come to the entrance stand of the underground parking the gate opens automatically again. In case the camera can not read your car registration number put your parking ticket that you got at the public parking entrance gate (where your car registration number was not read too) to the scanner.

c) Underground parking in DELTA building

When you go to the entrance stand of the underground parking, push the button on the entrance stand, take your parking ticket and the gate opens. In this building there is not the car registration number reading system.

2) Payment and exit

a) Your car registration number was read

When you come to the club tell the reception staff your car registration number and when you leave you will get the discount for your parking (depending on time you spend in the club and your Membership type). In case you drive the same car the system remembers your car registration number and the reception staff just confirm it with you.

b) Your car registration number was not read = you have your parking ticket

When you come to the club give your parking ticket to the reception staff. You will get your parking discount when you leave the club (depending on the time you spend in the club and your Membership type).

If you spend in the club or in the area more time than your parking discount is, you have to pay the rest of the parking fee through the parking payment machines. These machines are at the back entrance of the Brumlovka building, at the exit of the public parking, on the first underground floor of Brumlovka building opposite of the elevator and on the first underground floor of Delta building. There you type your car registration number or put your parking ticket to the scanner and pay the rest of your parking fee.

3) Your right for a discount

Your right for a parking discount depends on the time you spend in the club. The discount stays the same and depends on your membership type and the length of your visit (Silver card holders up to 2 hours, Gold, Partner card holders up to 3 hours and the Diamond card holders up to 4 hours.

The discount is connected to one car per visit.

Hourly rates from July 1, 2019

Mon – Fri 7.00 – 19.00 CZK 50/ hour

Others, holidays CZK 10/ hour

If you have any questions do not hesitate to ask the parking operators who will show and explain everything to you.

Thank you

Balance Club Brumlovka Team
